3. Discussion and Action If Any On Disposition Of Crews For Restoration Of City's Power Grid After Tornado Damages

City Manager John Camp discussed the above item with the council. We currently have crews from the City of Hemphill, Jasper-Newton Co-op, RES – Bynum, TX, and BA Electrical – Trout, La.. The approximate cost per day for RES is \$35,000.00, this does not include hotels and meals. There is a total of 52 crews which is \$113,750.00 total cost per day maximum. On Monday we hope to have about 89% of customers restored and we can release some of the crews. Deep East Texas Electric Co-op will provide crews to help out free charge for two days. This will help to reduce the number of crews already on hand. The total cost for contractors is approximately \$468,125.00. FEMA will not provide funding for this incident because it does not fall within the threshold of \$36,000,000.00 across the state. There was no action taken on this item.

The meeting was adjourned at 6:58 p.m.
