

MONTHLY ACTIVITY REPORT

For the local program, monthly reports are a way to track and document progress of both the program and the downtown revitalization effort. It is also an effective tool to use for updating the board on the program's overall activities and for communicating your progress to stakeholders, such as City Council and other funding entities. For the state office, monthly reports help us provide more direct and effective services by giving us a way to spot trends, challenges, issues etc. The report should reflect BOTH the work of staff and volunteers. While not all programs use the traditional four-committee structure any longer, the work of all programs should still be able to be reflected in the four-point categories below.

The Monthly Report is **due by the 10th of each month**. Please use electronic version, type or print legibly. Please use this electronic version and email to mainstreet-reports@thc.texas.gov.
